Washington, D. C. 20231

Sir:

Pursuant to the duty of candor expressed in 35 U.S.C. § 1.53 and 1.98, Applicants disclose the following information. This IDS is being submitted after receipt of an Office Action so therefore the requisite fee of \$200.00 is hereby enclosed.

Applicants' agent has become aware of a pending application filed on June 7, 1995, in the name of Dr. Gary Michelson, serial no. 08/480,908. This application discloses a threaded frusto-conical fusion implant. The application does not disclose a fusion device having substantially flat opposite side walls, as defined in the claims 1-11 of the present application. It is further believed that the Michelson application does not disclose the materials defined in the dependent claims of this pending application.

The filing date of the cited application is subsequent to the filing date of the present application. In making this information disclosure, Applicants are not making

any representations regarding the status of this Michelson application as evidence of prior inventorship or prior art. Nevertheless, it is believed that the claims of the present application are patentably distinct over the information disclosed in this prior Michelson application.

Respectfully submitted,

By Michael D. Beck
